

Really Good Friend

Volker Bauch / Volker Bauch

*Since we were born, we've been together
Day by day through all the years
You lived next door and we're getting closer
Making real all these ideas*

*We've played the games we saw on tv
And people said they can't believe*

*He was my really good friend
And I tried to understand
His love to his home and his plans
He was my really good friend
And I promised him my heart in my hand
To dream with him of our wonderland*

*The times go by we're getting older
Out of school in separate ways
We've run the band and played the music
And rocked the crowds on ev'ry stage*

*All the years we've been together
Hading fun and had no fears*

*He was my really good friend
And I tried to unterstand
His love to his home and his plans
He was my really good friend
And I promised my heart in my hand
To dream with him of our wonderland*

*Our friendship was the strongest
As a lttle boy has never seen
And I promised him my heart
Was full of dreams*

*And we needed us together
Like a child needs a mother
And I wanted him forever
Like my own my own brother*

*He was my really good friend
And I promised my heart in my hand
To dream with him of our wonderland*
